How does it work?

A lifetime mortgage is a loan secured against your home. Equity release will reduce the value of your estate and may affect your entitlement to means-tested benefits.

Cash facility

When you take your loan, you have the option of either taking a one-off lump sum (lump sum plan), or a smaller initial lump sum with the option to draw down cash in the future, as and when needed (drawdown plan).

If you choose a drawdown plan and don't take the maximum loan amount available to you the remaining amount will be available as a cash facility, but it's important to note that your cash facility is not guaranteed. There are no time limits on accessing your facility, but any cash drawn down is subject to a minimum withdrawal of £2,000.

Please note that your cash facility is not guaranteed.

Cashback

You can get up to an extra 5% of the loan amount released if you choose a plan with cashback – see table for details – minimum loan amounts apply.

This is not added to the loan, so no interest is paid on the cashback amount, but it's important to note that the interest rate applied to our plans with cashback will be slightly higher than our plans with no cashback option.

Partial Repayments

You can choose to make repayments of up to 10% of the initial loan amount each year, starting from the day the loan completes, without incurring any early repayment charges.

A maximum of 6 payments can be made per year and each payment must be a minimum of £500.

Repayments made outside of these conditions may incur early repayment charges.

Exemption from early repayment charges on death/admission into long-term care of a partner

In joint cases, the remaining borrower can repay the loan in full without incurring any early repayment charges within a period of 3 years of the death or admission into long-term care of the first borrower.
